

Opti-Schedule®

Advanced Technology for Retail Optical

Benefits

- **Get control of your book**
Opti-Schedule's flexibility allows you to adapt the software to meet your scheduling needs.
- **Fill your slots**
Decide how you want to fill the slots and use automated reminders and pre-appointments to keep the seats filled.
- **Know what's happening**
Real-time utilization graphs and daily, weekly or monthly reports give you the complete picture.
- **Spread the work**
Office, headquarters and call center staff share the same appointment book.

Scheduling

- **OD, MD and Staff** - Appointments can be scheduled for all your doctors, ODs and MDs, and staff providers.
- **Slot layout flexibility** - Vary the daily layout of slots depending on the day of week, the location and the provider.
- **Assignments** - Assign providers to a location for desired hours during a day.
- **Daily, Weekly or Monthly schedules** - Display schedules on a daily, weekly or monthly basis.
- **Coloring** - Color-code appointments by type or insurance plan.
- **Print any schedule or report** - Print schedules and reports for off-line usage.
- **Track revenue-producing appointments** - Track all revenue-producing appointments in reports and real-time displays.
- **Overbooks/Walk-ins** - Book extra appointments at anytime during the day.
- **Track no shows** - Keep track of patient "no shows" easily.
- **Mark appointments confirmed** - Confirm appointments manually or allow auto-reminders to confirm automatically.
- **Record appointment disposition** - Track the disposition of each appointment and know which appointments resulted in an order and which did not.
- **Pre-appointments** - Schedule a patient's next appointment 6-12 months in advance.
- **Call Center support** - Scripts optimized for internal or external call centers.

Insurance authorizations

- **Track unauthorized appointments** - Collect all unauthorized appointments into a single list.
- **OD and MD insurance plan lists** - Combine all insurance plans into a single list or separate them into OD or MD lists
- **Handled by remote group** - Enable appointment authorization by a headquarters group.

Time	Doctor	Confirmed?	Scanned	Name	Phone	Type	Insurance

Reporting

- **Daily, Weekly or Monthly** - Generate reports for any day, week or month.
- **Custom week support** - Designate any day of the week as your report start date.
- **Email subscriptions** - Email reports to your users on a daily, weekly or monthly basis.
- **Reports included:**
 - Doctor utilization
 - Location utilization
 - Appointment fall-off
 - Pre-appointment performance
 - No-show analysis

Electronic Document Scanning

- **No more paper shuffling** - All patient and appointment forms are captured in the office and electronically stored permanently.
- **Quicker error-free insurance submission** - Back-office staff have all forms ready when submitting.
- **Quick access** - All authorized users can retrieve patient forms from today or a year ago.
(see *Electronic Document Scanning data sheet*)

Opti-Reminders

- **Completely automated** - Send patient reminders without your staff's labor.
- **Telephone and Email** - Contact patients by both telephone and email message.
- **Customized to meet your needs** - Customize scripts used for telephone and email reminders and even vary it by location.
- **Appointment confirmation** - Confirm appointments ahead of time to give patients an opportunity to re-schedule and you the ability to make that slot available for other patients.
- **Order pickup** - Inform patients when their glasses or contact lenses are ready for pickup.

Script-based Scheduling

- **Custom script** - You decide the questions to ask during a scheduling call and have it match your business.
- **Optimize scheduling** - You optimize your appointment slotting based on insurance plan, patient age, or product selected.
(see *Script-based Scheduling data sheet*)
